## Good afternoon Introduction to Drafting & Design

### What are we learning today?

- Continuing with...What are the classroom expectations and procedures for Introduction to Drafting & Design? What are safety procedures in the classroom we need to be aware of?

### What are we doing today?

- Classroom Safety powerpoint
- Discuss fire drill, code red and tornado drill and procedures
- Discuss tools and equipment safety
- If we have time.... begin discussing careers – creative visualization – Where do you see yourself in 10 years?

### How will I show I learned it?

Be able to answer....

1. What is the most common type of fire in the drafting room?
2. What is the appropriate fire extinguisher to have in our room?
3. Where are the safe zones in our room in case of a tornado, etc?

AC-IDD-3

Demonstrate the knowledge and skills to properly use the tools and equipment safely in the drafting lab.

3.1 Maintain workstation and storage area.

3.2 Demonstrate and incorporate proper use of ergonomics in the drawing lab.

3.3 Follow class and lab rules.
